

FSG 329 PRODUCT BENEFITS

FSG 329 alfalfa was selected for yield, persistence, nematode resistance and disease resistance so that it will produce even under adverse environmental pressures. FSG 329 is the workhorse of the FSG alfalfa lineup and is adapted throughout the Western, North Central and Eastern United States. Forage quality is enhanced due to FSG 329's high multifoliate expression and is a great choice for commercial hay, beef and dairy producers.

- High multifoliate leaf expression
- Excellent forage yield potential and quality
- High resistance to stem and northern root knot nematodes
- Perfect 30/30 Wisconsin DRI rating
- Persistent
- Widely adapted

Resistance Ratings

Bacterial Wilt	Highly Resistant
Verticillium Wilt	Highly Resistant
Fusarium Wilt	Highly Resistant
Anthracoese Race I	Highly Resistant
Phytophthora Root Rot	Highly Resistant
Aphanomyces Race I	Highly Resistant
Pea Aphid	Resistant
Stem Nematode	Highly Resistant
N. Root Knot Nematode	Highly Resistant
